

The Department of
ANESTHESIOLOGY
& Perioperative Medicine

University of
Massachusetts
UMASS Medical School

Presents

FATE

Basic and Advanced Ultrasound Course

Saturday, November 10th, 2018

Sunday, November 11th, 2018

UMass Memorial Medical Center
University Campus
Albert Sherman Center
iCELS Simulation Center
Worcester, MA

iCELS Interprofessional Center for
Experimental Learning and Simulation

**In Kind Support by
GE Healthcare, Sonosite,
and Phillips**

CME Accreditation Statement

The University of Massachusetts Medical School is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Designation Statement

The University of Massachusetts Medical School designates this live activity for a maximum of 12 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only credit commensurate with the extent of their participation in the activity.

Course Information

FATE Ultrasound is the fastest, most efficient way to build proficiency in transthoracic echocardiography. Once enrolled with the FATE program, participants will receive access to a vast library of eLearning modules. These modules allow the participant to build the theoretical and cognitive framework prior to the day of the FATE course, and make it possible to gain proficiency in point-of-care ultrasound (POCUS) in only one day for Basic FATE. **All e-learning modules include a pre-test, and post-test, which must be completed prior to the hands-on-workshop.** Those seeking to become even more adept in ultrasound may opt for both days, to complete Advanced FATE. *Continued this year* is the **addition of basic lung US** including case scenario training into the Basic FATE curriculum. Dr. Sloth's team from Denmark will be back to guide you through one of the best offerings in POCUS training for Anesthesiologists and Acute Care Providers.

Basic FATE and Lung US-6 CME

Workshop Objective: The objective is to provide the course participant with basic echocardiographic skills for physicians who are not specialists of cardiology in order to guide cardiac optimization. This includes the basic imaging views and M-mode for cardiac dimensions and ventricular function. Basic lung ultrasound is a simple and systematic sonographic examination of the lungs in trauma and emergency situations. It allows the clinician to perform point-of-care ultrasound in a wide range of patients with respiratory emergencies in order to diagnose and exclude pleural effusion, pulmonary edema and pneumothorax.

Pre-workshop learning material: Basic FATE and lung E-learning covers: Introduction, equipment and skills, basic imaging views including IVC, M-mode, right and left ventricle function and pathology, pleural scanning, diagnosis and exclusion of pneumothorax, pleural effusion, and pulmonary edema using lung ultrasound. Topics will be covered in **small groups of 4-5 participants** to ensure an optimal learning experience.

Pricing

Single Course (Basic OR Advanced): **\$750**

Combined Course (Basic AND Advanced): **\$1200***

***Save \$300 when you sign up for both**

CME Accreditation Statement: The University of Massachusetts Medical School is accredited by the ACEME to provide continuing medical education for physicians.

Designation Statement: The University of Massachusetts Medical School designates the live activity for a maximum of 12 AMA PRA Category 1 Credits. Physicians should claim only credit commensurate with the extent of their participation in the activity.

Advanced FATE - 6 CME

Workshop objective: This course provides attendees with advanced skills for the non-cardiologist in order to perform all extended cardiac views and the most clinically relevant Doppler ultrasound: pressure estimation, assessment of cardiac output and left ventricular diastolic function. Also covered in this advanced course is repetition of the content of the basic FATE course, basic doppler ultrasound principles, and advanced clinical scenario training.

Pre-workshop learning material: Advanced FATE E-learning covers: Introduction, equipment and skill, extended imaging views, basic Doppler, Doppler for the assessment of pressure, cardiac output and diastolic function. Topics will be covered in the advanced workshop in **small groups of 4-5 participants** to ensure an optimal learning experience.

Lodging

The University of Massachusetts Medical School iCELS Simulation Center is a state of the art facility located in the Albert Sherman Center, on the medical school campus. Hotels close to the medical school include the following:

Marriott Residence Inn:
503 Plantation Street
Worcester, MA 01605
Marriot.com/hotels/
travel/bosri-residence-Inn
-worcester/
***508-753-6330**

Beechwood Hotel:
363 Plantation Street
Worcester, MA 01605
beechwoodhotel.com
***508-754-5789**

***When calling to make a reservation, make sure you ask for the discounted UMass rate!**

TO REGISTER FOR ONE OR BOTH COURSES, VISIT:

Course Faculty

Activity Director:

Brandon Smoller, MD

Assistant Professor of Anesthesiology, UMass Memorial Healthcare

Chief Instructor:

Anders Grejs, MD, Ph.D., Staff Specialist

Clinical Instructor in Point-Of-Care Ultrasound, Department of Intensive Care Medicine, Aarhus University Hospital, Aarhus, Denmark

Peter Juhl-Olsen, MD, Ph.D., Staff Specialist

Clinical Instructor in Point-Of-Care Ultrasound, Department of Anesthesiology, Aarhus University Hospital, Aarhus, Denmark

UMass Faculty:

Elifce Cosar, MD

Clinical Associate Professor of Anesthesiology, Clinical Vice Chair, Department of Anesthesiology and Perioperative Medicine

Rana Badr, MD

Clinical Associate Professor of Anesthesiology, Department of Anesthesiology and Perioperative Medicine

Gustavo Angaramo, MD

Clinical Associate Professor of Anesthesiology, Department of Anesthesiology and Perioperative Medicine, Director Anesthesia Acute Pain Service and Post-operative Recovery Unit

UMass Faculty (Continued):

J. Aaron Scott, MD

Assistant Professor of Anesthesiology; Associate Director, Critical Care and Perioperative Medicine Fellowship, Department of Anesthesiology and Perioperative Medicine

Phil Krapchev, MD

Assistant Professor of Anesthesiology; Associate Director of Heart and Vascular Anesthesia

Dennis Tighe, MD

Professor of Medicine, Director Echocardiography; Associate Director, Non-invasive Cardiology, Department of Medicine, Division of Cardiovascular Medicine

J. Matthias Walz, MD

Professor of Anesthesiology, Interim Chair of Anesthesiology and Perioperative Medicine

Guest Faculty:

Nibras Bughrara, MD

Assistant Professor of Anesthesiology and Surgery, Director, Adult Critical Care Echo Program, Albany Medical Center, Albany, NY

Cancellation Policy

UMMHC Department of Anesthesiology and Perioperative Medicine will refund tuition, less than a \$100 administrative fee, provided the cancellation is received in writing on or before **November 1, 2018**. No refunds will be issued after this date or for non-attendance. Conferences are subject to cancellation. In the event this conference is cancelled, UMMHC is not responsible for any airfare, hotel, or other costs incurred by participants.
